BELLA FIGURA

Chandra Small Lamp

TL817-SM

Collection Name
VEGA COLLECTION

Styled in the same visual language as Hubble, Chandra marks another voyage of discovery- a mission to uncover the universe using X-Rays by the Chandra X-Ray Observatory. The mesmerizing images sent back from the space probe capture far off whirling galaxies, eddying and spiralling whilst seeming completely motionless, a concept we chose to encapsulate with this mini-series of ceramic table lamps.
