Gibbous Lamp

TL815

Collection Name
VEGA COLLECTION

There is no celestial body as prominent in the night sky than our humble Moon, its faithful presence is one we consider with wonderment and awe. The Gibbous table lamp is made in tribute to the mysterious spirit of our lunar companion; a generous hand-blown glass body in three shadowy tones paired with a textured and gilded neck which echoes the rocky surface of The Moon. Owed to its flattened form and slim oval lampshade, Gibbous is perfectly suited to console tables and narrower spaces.
