Herschel Pendant

CL805-PEN

Collection Name
VEGA COLLECTION

A luminary masterpiece that pays a tribute to the distinguished British astronomer, Sir William Herschel. Renowned for his ground breaking discovery of Uranus and its two moons, Herschel's legacy inspires the design and essence of this pendant. The Herschel Pendant, a sleek and captivating luminaire, stands as a beacon of astronomical beauty. Complementing its pendant counterpart is the Herschel Wall Light, where pared-back detailing allows the intrinsic allure of alabaster shades to take centre stage. This series embodies a blend of celestial wonder and design sophistication that transcends time.
