BELLA FIGURA

Herschel Small Wall Light

WL805-SM

Collection Name
VEGA COLLECTION

"The stars are the land-marks of the universe" - Sir John Frederick William Herschel. The Herschel series pays tribute to British astronomer Sir William Herschel, renowned for his discovery of Uranus and its two moons. Inspired by the celestial, the collection is defined by sleek silhouettes and alabaster shades, whose natural veining and gentle translucence take centre stage. First introduced as a triple pendant with a matching wall light, the series now expands to include a four-pendant chandelier, a slim alabaster wall light, and a newly proportioned pendant, extending its versatility while preserving the timeless simplicity at the heart of the design.
