BELLA FIGURA

Jove Pendant

CL809

Collection Name
VEGA COLLECTION

This enchanting pendant light is striking on the eye and by Jove, we love it. Jove gains its name from the earlier name for the sovereign deity Jupiter, but it is not only in name that our Jupiter and Jove pendants mirror each other. Both styles are carved from a solid block of alabaster and once the shape is revealed, so too is the intricate network of veins which weave their way through this rock. Alabaster has a smooth appearance which possesses dreamlike qualities when lit due to the varying degrees of translucency in the mineral veins, these natural characteristics deliver a captivating aura and a luxurious warm glow which elevates any space.
