BELLA FIGURA

Optic Lamp

TL825

Collection Name
VEGA COLLECTION

Named in reference to the starburst rays of light which crown stars in astrophotography, the birds eye view of our Optic table lamp reveals a superb structure which visually represents these light optics. Viewed from the side the visual concept which inspired this design is totally disguised, but this new dimension offers a totally unique play on the original inspiration and gives a transitional look as the ceramic fins carve out a traditional shape in an ultramodern style. A triumph of this collection, the Optic table lamp makes a convincing entrance to our collection in three statement looks; Chalk, Jasper and Oil.

Required modifications for use on yachts - lacquer applied to all metal components, "sea rod" through centre to secure base to surfaces, with the cable exit through bottom of the base.
