BELLA FIGURA

Spectre Curved Oval Chandelier

CL850-CO

Collection Name
ANIMA COLLECTION

The presence of energy and movement cannot always be explained; a phantom, a mirage or a ghost. Our Spectre range takes on a somewhat ethereal form with its amorphous shapes and diaphanous presence. Created from a new suspended glass fixing, the Spectre ceiling lights appear to hover in mid-air and hint at the vestige of energy where life may once have been. Offered in a mix of clear glass with spectral satin glass elements, the dappled light effect that this creates disrupts any defined outline and produces a softness and a gentle vision for your interior setting. In a design first for Bella Figura, this variation of the classic round design is available in a unique curved oval shape that evokes images of an other-worldly ghost ship cutting through uncharted waters.
