## Clair de Lune Oval Wall Light

WL211-OVAL

Collection Name

**MOONLIGHT COLLECTION**

The classic romantic image of the moon illuminating rippled water. We developed a way of melting, fusing and shaping the perfect 3D illustration of this scene in glass. The undulations in the glass appear to sway and pulse as the light hits the frozen waves, all clasped by understated, sleek metalwork to keep your eyes undistracted from the play of light within. To preserve the image as we imagined, the glass is solely available in a Satin finish but the metal details can be created in a number of our house finishes; Brushed Gold, Brushed Nickel or Brushed Dark Bronze to subtly adapt the look of these distinctive designs. Finish note: We use a 2700K-3000K Module Led 1,8 Watt for this product but due to the metallic compounds within the glass the light produced appears far cooler in tone than photographed. See photo carousel for more details.

All our wall lights are suitable for bathrooms if positioned in Zone 3. Please refer to the IP Rating Guide in the Bathroom Section on our website

We use 2700k-3000k on this wall light, due to the nature of the artisan glass the light presents itself cooler in tone.
