BELLA FIGURA
THE WORLD'S MOST BEAUTIFUL LIGHTING

Autumn 2025 marks a season of quiet transformation, a collection defined by refinement, sculptural materiality, and the reimagining of timeless Bella Figura design. Showcasing both new creations and re-envisioned icons, this launch embodies elegance with a contemporary edge.

This season, Bella Figura unveils a collection shaped by refinement, material depth and a quiet sense of transformation.

As alabaster continues to enchant the design world, we expand our offering with new sculptural forms that celebrate its soft translucence and organic character. From wall lights to floor lamps, each piece is conceived to reveal the stone's natural beauty luminous, tactile and timeless bringing a gentle radiance to interior spaces.

Alongside these new additions, a selection of our signature designs has been thoughtfully reimagined. Through subtle adjustments in scale, proportion and detailing, these evolutions reflect our ongoing pursuit of excellence, where every curve, finish and junction is reconsidered with intention.

We also introduce a new palette of finishes across selected pieces, offering fresh interpretations through tone and texture. From rich aged metals to the softly luminous clarity of Selenite glass, these additions invite a greater level of personalisation and creative freedom.

Together, these elements form a collection that feels both elevated and quietly progressive, one that remains anchored in the spirit of timeless design while embracing the beauty of continual refinement.

HERSCHEL

The Herschel series pays tribute to British astronomer Sir William Herschel, renowned for his discovery of Uranus and its two moons. Inspired by the celestial, the collection is defined by sleek silhouettes and alabaster shades, whose natural veining and gentle translucence take centre stage. First introduced as a triple pendant with a matching wall light, the series now expands to include a four-pendant chandelier, a slim alabaster wall light, and a newly proportioned pendant, extending its versatility while preserving the timeless simplicity at the heart of the design.

CATENA

The Catena floor and table lamps are sculptural in form, crafted in smooth alabaster with satin and brushed bronze detailing. Each piece showcases a rhythmic, chain-like silhouette, a balance of strength and elegance. The name Catena, taken from the Latin for “chain” and used to describe crater chains on planetary surfaces, is reflected in the lamps’ distinctive linked form. The natural translucence of alabaster introduces a soft, atmospheric glow, while refined metalwork adds a contemporary finish. Designed as complementary pieces, the Catena lamps bring cohesion and quiet sophistication to any interior scheme, echoing both natural wonder and modern artistry.

AURORA

An ode to the great phenomenon of the night sky, the Northern Lights. The Aurora Chandelier is composed of two undulating layers of glass that dance back and forth. Each glass drop is embossed with a swirling pattern, highlighted by top-mounted LEDs that echo the spectral display of the Aurora Borealis to create a serene wonder. Now joined by the Aurora Pendant and Wall Light the collection extends this celestial beauty into new forms, offering the same sense of movement, texture and radiance across a complete family of designs.

SELENE

The Selene Pendant embodies balance and purity, sculpted from natural alabaster. Inspired by Selene, the Greek goddess and personification of the moon, its perfectly rounded form mirrors the celestial body she represents. A fine central opening allows light to escape softly from within, revealing the stone's delicate veining and natural translucence. Each pendant is individually shaped, making every piece a one-of-a-kind expression of natural artistry. Minimal yet commanding, the Selene Pendant offers a contemporary interpretation of alabaster lighting, refined, timeless, and beautifully atmospheric.

Crafted in ice triangular flat-cut glass, each piece captures and refracts light with crystalline clarity, creating a shimmering interplay of depth and brilliance. The layered concave silhouette enhances this radiance, making it a bold yet refined statement. A modern take on timeless Venetian artistry, the two-tier Concave Chandelier exemplifies elegance, innovation, and enduring design.

Each piece of glass is individually shaped, ensuring no two chandeliers are ever exactly the same.
